DUO-TECHNIK YOUR ENGINEERING PARTNER

WE CREATE SOLUTIONS

DUO-TECHNIK

PRODUCTS FOR PRINT

OUR COMMITMENT

It is the mission of Duo-Technik to be recognized as the most innovative, proactive and knowledgeable manufacturer of Productivity and Quality-enhancing products for the printing industry worldwide.

To achieve this we defined the following principals:

1

Customer

Our customers are our main focus. Our foremost priority is to achieve customer satisfaction and we always try to exceed their expectations. Our customer are our partners, we will listen to their wants and needs, with the intention to understand and learn from them, then address those needs while solving any gaps in technology.

2

Products

Our products will be technically always state of the art. Our decisions will always be innovative and solution-focused.

3

Quality

Quality starts with product design and engineering and culminates with the acceptance of the customer. Our benchmark will always be "customer satisfaction"

4

Service

Our goal is to provide our customers with effective technical support and constant parts availability throughout the lifetime of our equipment.

5

Company

We understand company as family. Each employee is a member of our family and everyone has an important function.

6

Employee

Our employees are our most important resource. Independent thought, flexibility, and responsibility, with gentle guidance is our credo. They will allow us to achieve a promising and successful future.

7

Success

Our objective of economic success and long-term viability will be reached by adhering to the aforementioned principals.

WHO WE ARE?

Since the operating launch of Duo-Technik in 1989, the company has evolved from a sales organization to an engineering organization, which is now able to provide a full range of auxiliary equipment for the printing industry.

Duo-Technik benefited from the trends of demand for new products or increased design performance.

Our product range comprises:

- dust removal systems for sheets & web machines
- infrared and hot-air dryers for water based inks and varnish applications
- wash-up systems for printing plates & aniloxes
- UV curing systems for inks and varnishes
- ink management systems
- vacuum transport systems for sheets

This full range of products makes Duo-Technik the only complete System-provider worldwide in the printing industry.

Milestone history of Duo-Technik:

- 1989** Duo-Technik is founded
- 1990** Development of the FIRST hot-air dryer for offline printers
- 1992** Development of the FIRST dust removal system for sheets
- 1994** Collaboration with IST-Metz GmbH for construction of UV curing units
- 1997** FIRST inline plate cleaning system (Auto Clean System)
- 1998** FIRST expansion of the manufacturing capacity
- 2000** Development of the 1st vacuum transportation
- 2001** Newest expansion of the manufacturing capacity
- 2002** Development of our high speed dryer for inline printers
- 2004** Unification of the administrative offices at the manufacturing facilities
- 2007** Development of our ink cooling system
- 2009** Development of the innovative infrared drying system
- 2010** Integration of ink cooling with viscosity & pH control
- 2013** Development of the Quick Plate Cleaner (QPC)
- 2014** Development of our off-line plate and anilox cleaning system

Our products are being used in more than 600 flexographic printing machines worldwide. Be it Europe, the Americas, Asia or Africa.

Duo-Technik will help you make your production plants run more efficiently, effectively and safely.

We have references world-wide... just ask us for one!

We thank our customers who joined with us, and we are looking forward to create a partnership with you.

WHO WE ARE?

// Our employees are our most important resource!

This is only possible with the support of our highly skilled and adaptable employees. Careers with responsibility, ever evolving challenges, a friendly working atmosphere and a profit sharing program provide unrivalled incentives for our employees.

Founded on our principals, Duo-Technik is an organization that offers the best opportunity to help find creative solutions and deliver first-class products.

// Anywhere in the world

Our competent sales & after-sales teams are always available. Talk to us about your projects, we will design and/or propose a solution for you.
